

Raytheon

- Company: Raytheon
- Investigators:
 - Dr. Duong Nguyen, P.I.
 - Dale M. Rickman
- Current Team Members- None (yet)

- Existing (& Continuing) Research
 - Hostile Intent Recognition by Automatic Behavior Assessment
- Future Direction
 - Deception Detection
 - Fusing Multiple Approaches Together
 - Standoff bio-physiological measurements
 - Facial micro-expressions
 - Voice Analysis
 - Social Network Analysis

A vertical strip of three topographic map segments is positioned on the left side of the slide. The maps use a color gradient from green to brown to represent elevation, with blue lines indicating rivers and streams. The segments are stacked vertically, showing different geographical features and terrain types.

Summarize your unique qualifications and capabilities

A Global Leader in Defense,
Homeland Security and other
Government Markets

- \$23.2 billion in sales in 2008
- 72,000 employees worldwide
- More than 8,000 technology-driven programs
- Locations in 50 states, 80 countries, 7 continents
- Among the top 5 aerospace and defense companies in the nation

- Specific capabilities your group is seeking
 - Universities or research companies with standoff bio-physiological measurement, voice or video analysis capabilities for
 - Deception
 - Hostile Intent
- Type of research group you seek to join
 - Customer collaboration Opportunities
