

Lead investigator:
Ewald Enzinger, Ph.D

Team members:
Elaine Kelsey
Benjamin Bell, Ph.D.

Research areas of interest

- Concept drift in information extraction
- Incorporating human judgements into information extraction via human-in-the-loop computation

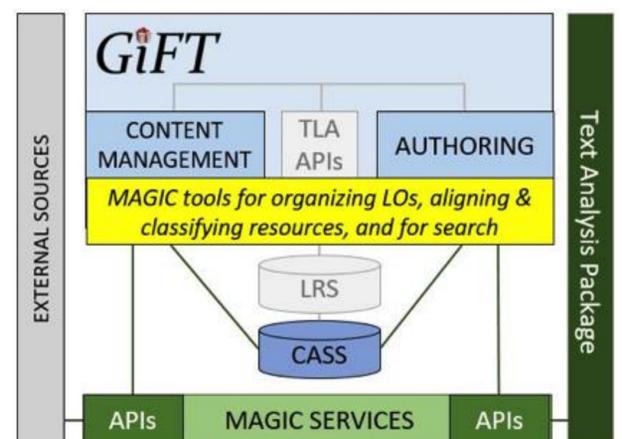

Our capabilities

- Natural Language Processing
- Automated Document and Text analysis
- Topic Modelling/Extraction applied to social media, blog, and news sources
- Automated Metadata Tagging
- Automated Question Generation
- Computational and Human Linguistics Expertise in Multiple Languages

Research group

- We seek to join a research group as subcontractor
- Looking to contribute our AI, Machine Learning and automated analysis expertise and technologies
- Interested in expanding our proven approaches to new areas

Ewald Enzinger, Ph.D.
