

Onu Technology, Inc.

- Small business
- Won and hold DARPA contracts
- Headquartered in San Jose, CA, with additional location in San Diego, CA

Presenter: Dr. Guha Jayachandran, C.E.O.

These slides follow the required template.
Contact info@onutechnology.com for more information.

IARPA DIVA Presenters Day
July 12, 2016
Onu Technology, Inc.

Relevant strengths/interests:

- High-performance, low-latency streaming platform for enabling real-time recognition on-premise or via-cloud
- State-of-the-art deep neural networks for action recognition, with pipeline for novel data sets

Our team is highly accomplished in

- GPU programming
- Deep neural networks
- N.L.P.

Our team includes CUDA pioneers, former deep learning professors, and serial entrepreneurs.

IARPA DIVA Presenters Day
July 12, 2016
Onu Technology, Inc.

We're always interesting in meeting people who have ideas for interesting applications for our technology (either for real-time streaming/computation or for action recognition).

We are also interested in collaborators with novel action datasets!
