# Hire✦Vue + CLEVERMIND

What We Do

Interview anyone, anywhere, on-demand via video.

Use deep learning to compare individuals against known outcomes.

The result? An on-demand diagnostic platform with super-human accuracy.

600+ customers.

Discovery COMMUNICATIONS | □·BASF We create chemistry | HBO | devon

DOW JONES | ▲ DELTA | Carnival | CDW

AMERICAN EXPRESS | Mercedes-Benz | dunkin' brands | MLB

QANTAS | Red Bull | Mc Graw Hill Education | vodafone

A deep learning analytics engine that uses machine learning to extract and understand behavioral attribute patterns derived from structured and unstructured digital interactions. Insights builds data models by linking digital interactions - including audio, video, text and natural language – to outcomes such as job performance, turnover and safety.
