

- Recorded Future
- Jason Hines

- Working to organize all the world knows about the future and make it available for analysis
 - Indexing events from blogs, mainstream news and social media since 2009
 - Extracting entities, events, temporal reasoning, sentiment and momentum signals from the web
- “Chavez plans to visit **Iran** *two weeks after* the *Iranian new year*.”

- We offer: data, temporal analytics & extraction platform, or both

- Practical mathematicians/statisticians with background in quant finance, physics or other statistical modeling
- Integration services and complex IT systems support
- Analysts: Recorded Future is an analysis tool, not a Magic 8 Ball 😊
