REASON Teaming Information

Organization and POC	Areas of Expertise	Areas Sought
Blue Ridge Dynamics Kyle Miller Kyle.miller@blueridgedynamics.com 571-438-5080 Blueridgedynamics.com	• Software and systems engineering and integration • Natural language processing	• Philosophy of language, rationality, informal logic, and argumentation • Personnel with experience in intelligence analysis • Cognitive psychology • Machine/Learning/Artificial Intelligence/Data provider
C3 AI Remington Barrett Remington.barrett@c3.ai 213-313-9952 www.c3.ai	• Software and systems engineering and integration • Personnel with experience in intelligence analysis • Natural language processing • Recommendation engines; course of action dev.	• Cognitive psychology • Philosophy of language, rationality, informal logic, and argumentation • Judgment and decision making
Carnegie Mellon University Nicholas DiBella dibella@cmu.edu 412-909-7608 sites.google.com/view/nicholasdibella/	• Philosophy of language, rationality, informal logic, and argumentation • Judgment and decision making • Applied epistemiology, Probability, Argument mapping	• Cognitive psychology • Natural language processing • Software and systems engineering and integration • Personnel with experience in intelligence analysis • Automated informal logic, Operationalized pragmatics
Centre for Argument Technology, University of Dundee	• Philosophy of language, rationality, informal logic, and argumentation	• Personnel with experience in intelligence analysis

Chris Reed chris@arg.tech +44 1382388084 www.arg.tech	• Natural language processing • Judgment and decision making • Personnel with experience in intelligence analysis • Software and systems engineering and integration	• Cognitive psychology • Software and systems engineering and integration
Duke University Benjamin Eva Benjamin.eva@duke.edu 919-943-3724 Philosophy.duke.edu	• Philosophy of language, rationality, informal logic, and argumentation • Judgment and decision making • Rational Choice Theory	• Natural language processing • Cognitive psychology • Software and systems engineering and integration • Personnel with experience in intelligence analysis
Elcomm LLC Ronald Ellerbee ron@elcomm.us 404-618-3416 www.elcomm.us	• Personnel with experience in intelligence analysis • Designing KMASS Systems	• Judgment and decision making • Natural language processing • Software and systems engineering and integration • Cognitive psychology • Philosophy of language, rationality, informal logic, and argumentation • DARPA KMASS Experience
George Mason University Gheorghe Tecuci tecuci@gmu.edu 571-426-2456 lac.gmu.edu	• Philosophy of language, rationality, informal logic, and argumentation • Judgment and decision making • Software and systems engineering and integration	• Software and systems engineering and integration • Natural language processing

	• Personnel with experience in intelligence analysis • Artificial intelligence, machine learning, evidence-based reasoning	• Cognitive psychology • Personnel with experience in intelligence analysis • Open source software development, Automated software testing
IBM Steve Stennett **smstenne@us.ibm.com** 561-565-9606 Ibm.com	• Philosophy of language, rationality, informal logic, and argumentation • Cognitive psychology • Judgment and decision making • Natural language processing • Software and systems engineering and integration	• Personnel with experience in intelligence analysis
Knexus Research Corp. Kalyan Gupta **Kalyan.gupta@knexusresearch.com** 703-321-6740 www.knexusresearch.com	• Natural language processing • Judgment and decision making • Philosophy of language, rationality, informal logic, and argumentation	• Software and systems engineering and integration • Cognitive psychology • Personnel with experience in intelligence analysis
Logic Intelligence Promod Antony **Promod.antony@logicintelligence.com** 503-523-2722 **www.logicintelligence.com**	• Judgment and decision making • Personnel with experience in intelligence analysis • Software and systems engineering and integration • Process Automation, data discovery, advanced analytics	• Philosophy of language, rationality, informal logic, and argumentation • Cognitive psychology • Natural language processing
Matellio Amrit Singh **amrit@matellio.com** 203-258-9691 Matellio.com	• Natural language processing • Software and systems engineering and integration • DevOps; Quality assurance & testing; Cloud architecture	• Philosophy of language, rationality, informal logic, and argumentation • Cognitive psychology • Judgment and decision making

		• Personnel with experience in intelligence analysis
MORSE Eric Nelson enelson@morsecorp.com 857-999-0206 Www.morsecorp.com	• Software and systems engineering and integration • Test & Evaluation	•
Ox Intel Lila Ghosh lila@oxintel.ai 917-325-3407 www.oxintel.ai	• Judgment and decision making • Personnel with experience in intelligence analysis • Software and systems engineering and integration	• Personnel with experience in intelligence analysis • Software and systems engineering and integration • Natural language processing • Cognitive psychology
Protagonist Technology LLC Bryan Pelley bpelley@protagonist.io 202-441-4724 www.protagonist.io	• Natural language processing • Software and systems engineering and integration • Personnel with experience in intelligence analysis • Judgment and decision making	• Philosophy of language, rationality, informal logic, and argumentation • Cognitive psychology • Judgment and decision making
Justice Institute of British Columbia John Pyrik johnpyrik@gmail.com 604-989-6115 Jibc.ca	• Personnel with experience in intelligence analysis	• Cognitive psychology • Judgment and decision making • Natural language processing • Software and systems engineering and integration

RAM Laboratories Robert McGraw **rmcgraw@ramlabs.com** 619-398-1410 x102 **www.ramlabs.com**	• Natural language processing • Software and systems engineering and integration	• Philosophy of language, rationality, informal logic, and argumentation • Cognitive psychology • Judgment and decision making • Personnel with experience in intelligence analysis
Safe-esteem Filippo Marino **info@safe-esteem.com** 312-488-9776 **www.safe-esteem.com**	• Judgment and decision making • Philosophy of language, rationality, informal logic, and argumentation • Cognitive psychology • Personnel with experience in intelligence analysis • Software and systems engineering and integration	• Natural language processing • Personnel with experience in intelligence analysis • Software and systems engineering and integration
Sentimetrix Vadim Kagan **kagan@sentimetrix.com** 240-498-5285 www.sentimetrix.com	• Natural language processing • Software and systems engineering and integration • Machine learning, data analysis	• Judgment and decision making • Philosophy of language, rationality, informal logic, and argumentation • Personnel with experience in intelligence analysis
Storage Strategies Inc Rick Cox **Rick.cox@ssihq.net** 703-967-6910 www.ssihq.net	• Software and systems engineering and integration • Cyber defensive operations	• Enterprise service management
SynDG George Davis **gdavis@syndg.com**	• Personnel with experience in intelligence analysis • Judgment and decision making	• Natural language processing • Cognitive psychology

516-581-1426 Syndg.com	• Software and systems engineering and integration • Analytical Tradecraft, Operations-Intelligence Fusion	• Philosophy of language, rationality, informal logic, and argumentation • Software and systems engineering and integration • Algorithm Development, Game Theory
Syracuse University Jennifer Stromer-Galley jstromer@syr.edu 315-443-1823 Ischool.syr.edu/ Jennifer-stromer-galley	• Judgment and decision making • Philosophy of language, rationality, informal logic, and argumentation • Cognitive psychology • User-centered design; information processing	• Natural language processing • Software and systems engineering and integration • Personnel with experience in intelligence analysis
Wichita State University Richard Gruetzemacher Ross.gruetzemacher@wichita.edu 423-902-2617 www.wichita.edu/profiles/ academics/ business/ office_of_the_dean /department-of-finance -real-estate-and-decision-science/ Gruetzenmacher-Ross.php	• Natural language processing • Judgment and decision making • Bayesian networks	• Cognitive psychology • Judgment and decision making • Software and systems engineering and integration • Personnel with experience in intelligence analysis
Worcester Polytechnic Institute Xiaozhong Liu Xliu14@wpi.edu 315-378-6646 www.wpi.edu	• Natural language processing • Judgment and decision making • Personnel with experience in intelligence analysis • Information Extraction, Knowledge Graph	• Natural language processing • Software and systems engineering and integration
