

## PARC Laboratories

- System Sciences
- Interaction and Analytics
- Computing Sciences
- Electronic Materials
- Hardware Systems

- 250 Researchers
  - 80% PhDs
- Multidisciplinary
  - Physical science
  - Computer science
  - Social science
- Business Model
  - Commercial
  - Government
  - Xerox

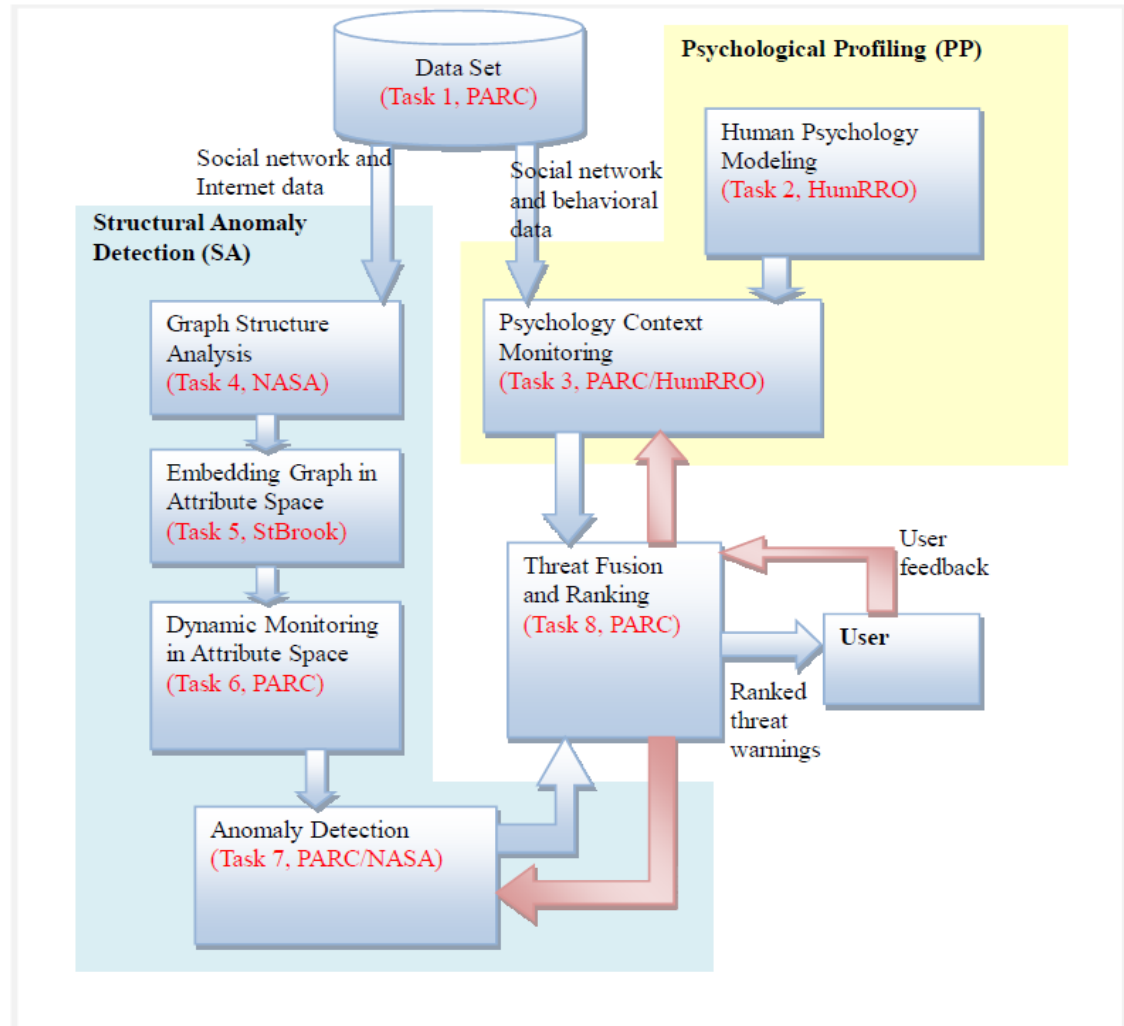

# SCITE Related Expertise

---

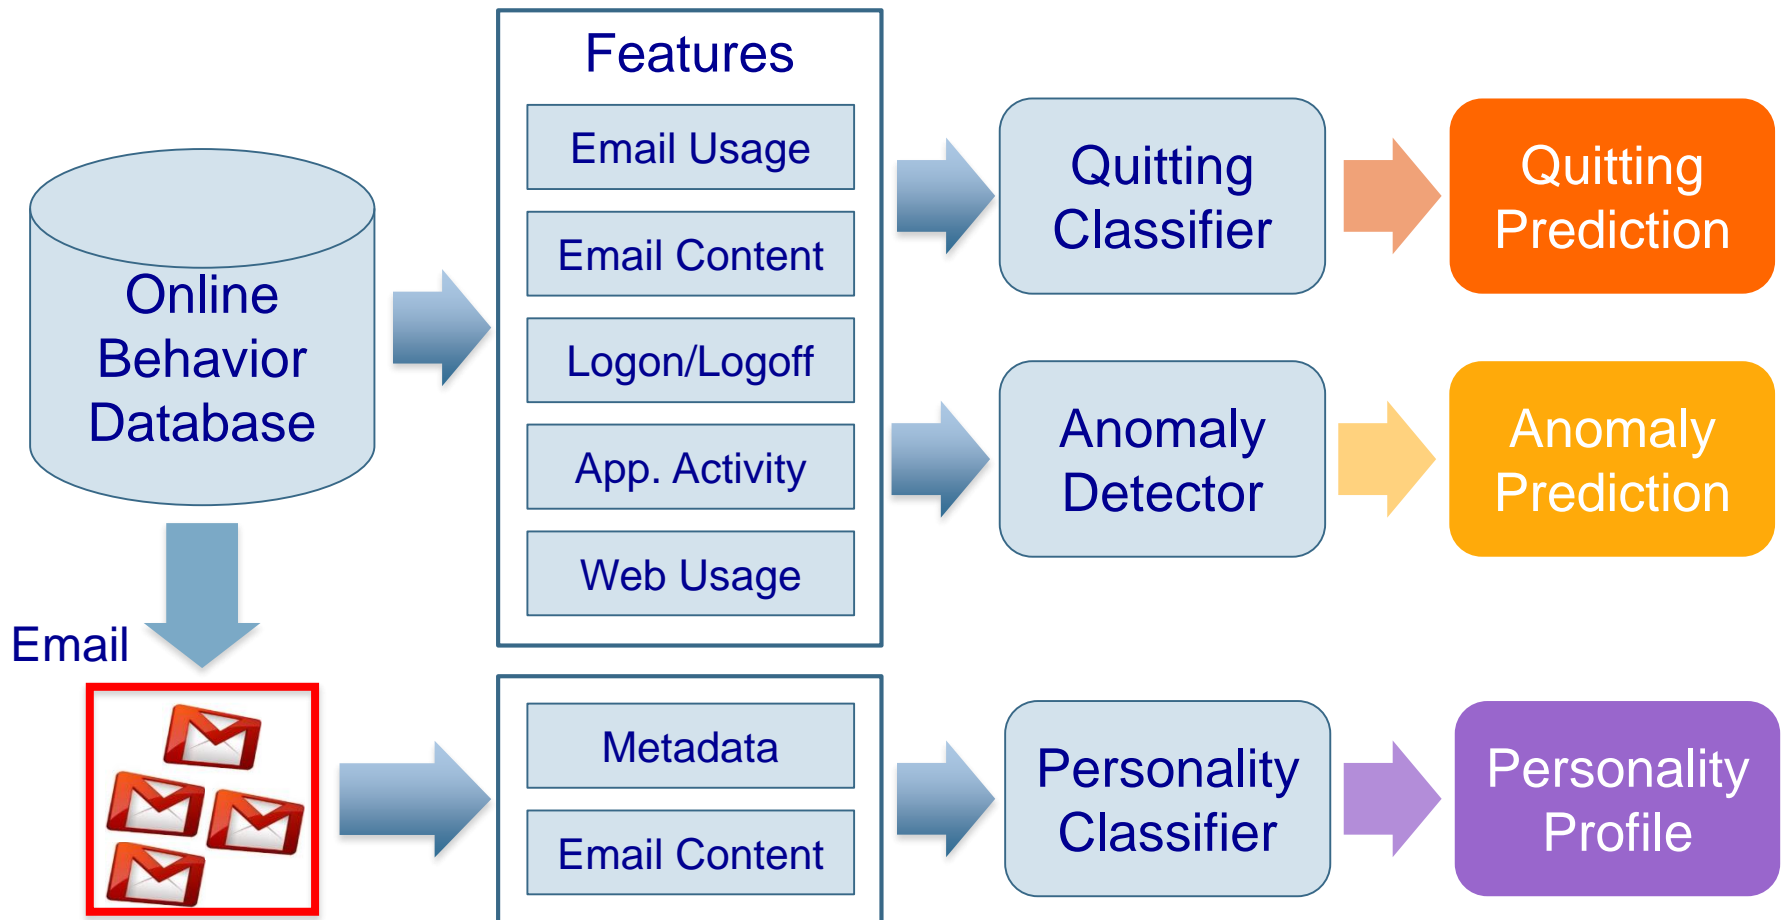

- Multidisciplinary Integration & Management
- Machine Learning and Analytics
  - predictive models
  - anomaly detection
  - active learning
  - sequential-decision-making
- Knowledge Representation & Reasoning
- Visualization and UX Design
- Cognitive Psychology, Ethnography & Sociology

# ADAMS GLAD-PC

- PARC project:
  - Graph Learning and Anomaly Detection using Psychological Context (GLAD-PC)
  - **Idea:** combine *graph learning / structural anomaly detection* and *psychological modeling*
