

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Paul Lehner

Chief, Testing and Evaluation

Intelligence Advanced Research Projects Activity

IARPA
BE THE FUTURE

LEADING INTELLIGENCE INTEGRATION

Dr. Paul Lehner is IARPA's Chief of Testing and Evaluation. He joined IARPA in 2015 as a program manager for the Scientific advances to Continuous Insider Threat Evaluation (SCITE) program, and became chief of testing and evaluation in 2016. Prior to IARPA, he worked at MITRE and served in several roles, including chief engineer for the Information Technology Division and the Internal Revenue Service Federally Funded Research and Development Center. Before MITRE, he was an associate professor of system engineering at George Mason University and the technical director for the Decision Systems Group at PAR Technology Corporation. Paul holds a bachelor's degree in psychology from Bethany College in West Virginia. He has masters' degrees in mathematics and psychology, and a doctorate in mathematical psychology from the University of Michigan. His doctoral dissertation focused on automated reasoning and strategic planning in the oriental game of Go.

The Intelligence Advanced Research Projects Activity (IARPA) invests in high-risk/high-payoff research programs that have the potential to provide our nation with an overwhelming intelligence advantage over future adversaries.
