

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Jason Matheny

Director, IARPA

Intelligence Advanced Research Projects Activity

IARPA
BE THE FUTURE

LEADING INTELLIGENCE INTEGRATION

Dr. Jason Matheny became IARPA's director in 2015, after serving as a program manager, associate office director, and office director. Before IARPA, he worked at Oxford University, the World Bank, the Applied Physics Laboratory, the Center for Biosecurity and Princeton University, and is the co-founder of two biotechnology companies. His research has been published in *Nature*, *Nature Biotechnology*, *Biosecurity and Bioterrorism*, *Clinical Pharmacology and Therapeutics*, *Risk Analysis*, *Tissue Engineering* and the World Health Organization's *Disease Control Priorities*, among others. His research has been profiled in the *New York Times*' annual "Ideas of the Year," *Discover Magazine*'s "Top Science Stories of the Year," as well as *NOVA*, *Scientific American* and *the Economist*. Dr. Matheny holds a doctorate in applied economics from Johns Hopkins, a master's in public health from Johns Hopkins, a master's in business administration from Duke and a bachelor's from the University of Chicago. He received the Intelligence Community's Award for Individual Achievement in Science and Technology.

The Intelligence Advanced Research Projects Activity (IARPA) invests in high-risk/high-payoff research programs that have the potential to provide our nation with an overwhelming intelligence advantage over future adversaries.
