

## Who we are:

- Small, veteran-owned business started in 2001
- 42 technical staff – 17 PhD, 19 MS degrees
- Premium services in decision & risk analysis, operations research, and systems engineering
- GSA MOBIS and SeaPort schedules
- TS facility clearance

IDI is looking to partner with a cyber security firm to research and develop decision analytics in support of Cyberspace Operations.

## What we do:

- Decision Support Tools and Analytics Research
  - Cyber Risk Tool
  - Cyber Risk Metrics
- Extract from raw data descriptive and predictive analytics
- Multidisciplinary projects that typically merge social and behavioral science with technical approaches
- Build probabilistic models for environments under conditions of uncertainty (e.g., Multivariate Analysis, Bayesian Networks)
