

- Perigean Technologies LLC
- Lead Investigator: Brian Moon
- Seeking partners

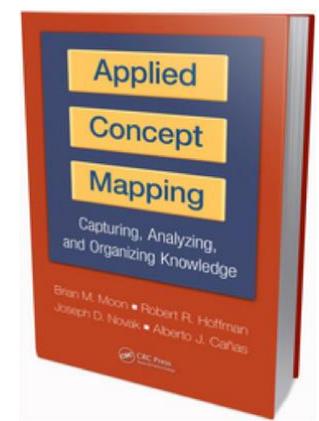

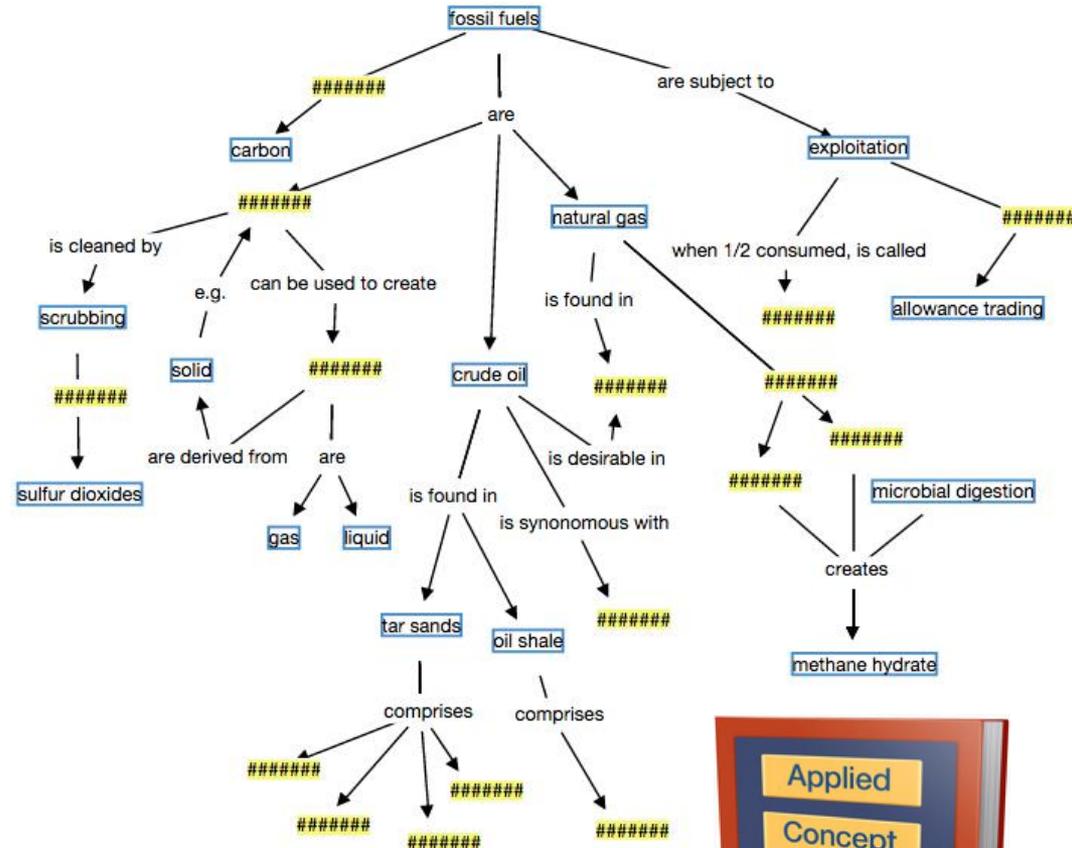

# Research Area of Interest

- Concept Maps to represent argumentation, distribute to the crowd for review/ correction/ addition/ re-assessment
  - Multiple methods for argumentation and refinement, at the node, link, and proposition level

# Unique qualifications

- Sero! is our cloud-based Cmapping capability, currently implemented for learning assessment
- Editor, *Applied Concept Mapping*

## Research seeking to join

- Seeking partners in semantic and mathematical analysis of graphs/triples
- Would join teams pursuing argument diagramming approaches
